EDUCATION

B.Tech (Computer Science)
Aug 2018 – Aug 2022
United College of Engineering
and Research (8.26 CGPA)

SKILLS

- HTML5, CSS3
- Javascript, ES6
- ReactJS
- Git & GitHub
- API
- MongoDB
- Object Oriented Programming

CORE COMPETENCIES

Software Development
Data Structures & Algorithms
Web Development
Agile Methodologies
API Integration
Networking
Debugging & Troubleshooting

AWARDS

- Received Employee of the Month Award at enVista corp, Bengaluru in 2023
- Infosys Certified Software Engineer 2021
- Secured 4795th place in Google Kick Start Round E and 3161st place in Google Kick Start Round D in 2020
- Stood 1st at the inter-college project competition in 2019

SHIVAM PANDEY

FRONTEND DEVELOPER

SUMMARY

A driven and methodically focused Software Developer with 2+ years of experience, offering facilitating cutting-edge engineering solutions using technologies such as Java, CSS, React JS, MongoDB; looking forward to working with a well-regarded firm

EXPERIENCE

Software Developer Jan 2022 – Present
enVista corp

- Creating and implementing designs for multiple pages within the Order Management System (OMS); understanding user requirements, creating wireframes, and coding responsive pages that are optimized for different devices and screen sizes
- Upgraded order dashboard for improved accessibility and monitoring, resulting in the best user experience in terms of response time at peak load capacity.
- Adding new functionalities to the OMS and integrating with other applications through APIs; understanding the OMS architecture and its integrations with other systems, developing new features that align with business requirements, and testing and deploying code changes
- Participating in daily stand-up meetings, identifying blockers and resolving issues, and updating JIRA tickets to track progress; investigating problems reported by end-users, debugging code, adding new features and updating JIRA tickets to document findings and resolutions

Supercoder Trainee Sep 2021 – Dec 2021
CodeQuotient

- Designed and implemented the user and admin dashboard panels, ensuring they are intuitive and user-friendly
- Created APIs that allow different services to communicate with each other, ensuring smooth data transfer and functionality
- Identified and fixed major bugs in the system, which may include UI issues and functionality issues; troubleshooted and debugged code to identify and resolve the root cause of issues

Frontend Developer Trainee Jun 2019 – May 2020
United Group of Institutions IT CELL

- Development of departmental website for student management, faculty management and department related services
- Developed and managed the web pages and web services
- Worked as a team lead in this project internship.

PROJECTS

Dream2success Sep 2021 – Feb 2022
Worked on Admin and User Dashboard Panel.
Contributed to the implementation of API, login–logout functionality, db connectivity
